COMPUTER SCIENCE UNDERGRADUATE

Full-stack developer who ships production software for real businesses. Built a role-based sales, collections and payroll platform that has been in daily use at a distribution company for 6+ months, and led the team that shipped a multi-vendor e-commerce app to the Play Store. Works across React, Next.js, TypeScript and Supabase, and builds native Apple apps in SwiftUI. Currently pursuing BSc Computer Science at University of Westminster.

EDUCATION

Informatics Institute of Technology Affiliated to University of Westminster January 2025 - Present
BSc (Hons) in Computer Science

Informatics Institute of Technology (IIT) September 2023 - May 2024
Foundation in Higher Education

Applied Private June 2024 - November 2024
G.C.E Advanced Level in Commerce Stream

Hanwella Rajasinghe Central College January 2017 - May 2023
G.C.E Ordinary Level

STRENGTHS AND EXPERTISE

Languages: TypeScript, JavaScript, Swift
Frontend: React, Next.js, React Native, Tailwind CSS, HTML5, CSS
Backend & Data: Supabase (PostgreSQL, auth, storage), REST APIs
Apple platforms: SwiftUI, SwiftData, Siri and Shortcuts
Tools & Deploy: Git, GitHub, Vercel, Turborepo, pnpm workspaces, Figma
Familiar with: Java, Python, Node.js, Express, MySQL, MongoDB

PROJECTS

3D's Distributors System
Full-Stack Developer | POS System

Built and deployed a role-based sales, collections and payroll system for a distribution company. In production for 6+ months with about 10 workers, 5-6 users and 10-30 invoices a day. Implemented the sales workflow: invoice requests with manager approval, out-of-stock shortages sent to supplier orders, and a product photo gallery with a cart that feeds new invoices. Built collections for sales reps and drivers with manager approval against cash in hand and cheque deposit reminders, plus automatic payroll with commissions, incentives, EPF/ETF, loans and advances. Added expense and profit tracking and sales, customer and stock reports. Structured as a Turborepo monorepo with a shared core, reused for two more clients.

Nymo.lk
Team Lead | Mobile app & a Web Platform

Led the development of a unified apparel e-commerce platform. Managed end-to-end implementation of vendor onboarding and dashboard functionality. *Successfully deployed the mobile application to the Play Store and onboarded 5+ vendors, preparing the platform for production launch.*

Leo Club of Pannipitiya Metro Titans Website

Developer | React, Tailwind CSS, Resend, Cloudflare Email Routing

Built the leo club website from scratch, with a join page for new members and an admin panel for running the club.
Admin panel: add and manage projects, view the member list, accept members who join through the join page, and write and send newsletters by email to all members. Accepting a member immediately sends them a welcome email in a proper HTML template through Resend.

Lensy

Developer | *SwiftUI, SwiftData, Supabase*

Built a complete native macOS app for tracking contact lens wear: a timer that survives quitting, a menu bar item, session history and reports, also with Siri and Shortcuts support. Local-first storage with SwiftData, synced through Supabase for the upcoming iOS version.

Restaurant Management Platform

Developer | TypeScript, React, Google Places API, SEO

Built a responsive web application for a restaurant integrating Google Maps and customer review APIs. Designed a secure authentication system for the owner and implemented a custom dashboard to manage menu items, and media content. Focused on usability for non-technical users and Search Engine Optimization for discoverability.

Personal Portfolio Website

Developer | React, Vite, SEO

Developed a personal portfolio using React and Vite with optimized build configuration for fast load times. Implemented SEO practices including metadata optimization, semantic HTML, and performance tuning to improve search engine visibility and indexing.

Acedemic Projects

OceaVia

Team lead, SDG 14 awareness site in HTML, CSS and JavaScript

Agri Guide

Figma UI design for a farming assistance app

EXTRA CURRICULAR ACTIVITIES

Leo Club of Pannipitiya Metro Titans

- Board Member (2026/27)
  - Chief Editor (2026/27)

Informatics Institute of Technology

- Volunteer and Board Member | Rotaract Club of IIT (2025/26)
  - International Service Director (2025/26)
- Batch Representative | Level 05 IIT (2025/26)

Hanwella Rajasinghe Central College

- Rugby Team of Hanwella Rajasinghe Central College
  - Team Player (2021 - 2023)
- Photographic Society of Hanwella Rajasinghe Central College
  - Committee Member (2022 - 2024)
